

**Kasturi
Foundation**

Dedicated to Cancer Care

Cancer remains a dreaded disease even today because...

- ...it is a terminal disease due to late detection.*
- ...its treatment is affordable only to the financially blessed.*
- ...its pain is suffered by the patient but the agony is felt by the family.*
- ...it does not even spare the innocent children.*
- ...there is a lack of awareness amongst the society.*
- ...it is treated at very few centers across India.*

Kasturi Foundation has taken up a challenge to let Cancer remain only a Zodiac sign. To fulfill this challenge we have taken up an onerous task against each of these causes by creating awareness through lectures and early detection camps and supporting the patients post detection.

How Can You Make a Difference?

Donate generously for this noble cause. You can support us to the best of your ability in any of our programs. Sponsoring can range from a treatment of a patient with up to Rs. 3 lakhs to as low as Rs. 7500 by providing monthly supplies of grains to a cancer affected family.

Donations to Kasturi Foundation are exempt from Income Tax U/S 80G

Please issue cheques in the name of Kasturi Foundation
